## WORK EXPERIENCE

### Full Stack Developer

#### Zeuz AI

05/2024 - Present

Dhaka, Bangladesh

AI-powered, self-evolving test automation platform

#### Achievements/Tasks

- Worked on an EduTech client's existing student portal, contributing to features such as student enrollment, course registration, and multi-payment-gateway integration.
- Developed core modules for BBEnroll and bbSlate APIs (.NET 8), including student registration workflows, assignment submission, teacher grading, and administrative review processes.

### Senior Software Engineer

#### MyMedicalHUB International, Ltd.

12/2023 - 05/2024

Dhaka, Bangladesh

Medical Software Development

#### Achievements/Tasks

- Worked on an existing medical software platform, enhancing features where patients perform exercises and generate reports.
- Refactored legacy modules into a new Onion Architecture, improving structure, scalability, and maintainability.

### Software Engineer

#### ASAI Management Service Limited (AMSL)

06/2021 - 12/2023

Dhaka, Bangladesh

Microfinance Institution

#### Achievements/Tasks

- Designed, developed, and optimized the AMMS core business platform, enhancing system performance, database efficiency, and overall maintainability.
- Developed core modules of the NextGen platform as part of a cross-functional team, ensuring clean architecture, optimized APIs, and scalable design.

### Assistant Software Engineer

#### ASA

02/2017 - 05/2021

Dhaka, Bangladesh

Microfinance institution

#### Achievements/Tasks

- Designed, developed, and optimized the AMBS core business platform, improving system reliability, performance, and maintainability.
- Designed and developed real-time financial reports using optimized SQL queries and backend APIs to ensure high performance and accuracy.

## SKILLS

.NET

C#

ASP.Net Web API

ASP.Net MVC

MS SQL

Clean Architecture

Onion Architecture

MicroServices

Angular

Jquery

AngularJS

LINQ

Entity Framework Core

Dapper

## PROJECTS(TEAM/ORGANIZATION)

### 1. Best Brains Portal (05/2024 - Present)

- Developed and enhanced modules for Student & Subject registration, Teacher management, and optimized reports for better performance.
- Integrated third-party services for billing (QuickBooks) and payments (RazorPay, Authorize.Net), ensuring smooth and reliable transactions.

### 2. Best Brain Slate API (01/2025 - Present)

- Developed features for student submissions, teacher evaluations, grader grading, and admin reviews, ensuring smooth workflow across the system.
- Implemented background services for merging student drawings and other related processing to improve performance and reliability.

### 3. My Medical Hub (02/2021 - 05/2021)

- Processed AI-generated data into the database for analysis.
- Built various reports to provide actionable insights from the data.

### 4. ASAI Microfinance Business System(AMBS) (06/2021 - 12/2023)

- Designed, developed, and optimized the core business platform, improving system performance, database efficiency, and maintainability.
- Developed NextGen platform modules within a cross-functional team, ensuring clean architecture, scalable APIs, and robust design.

### 5. ASA Microfinance Management System (AMMSOnline) (02/2017 - 01/2021)

- Designed and developed the overall architecture for AMMS Online, ensuring a scalable, maintainable, and efficient system for microfinance operations.
- Designed a partitioned SQL Server database capable of handling smooth operations across 3000+ branches, optimizing performance and data management.

## EDUCATION

**B.Sc. in Computer Science and Engineering**  
American International University-Bangladesh (AIUB)(CGPA: 3.59/4.00)
